

FROM COMPOUND SOLUTIONS

MIND, BODY, PERFORMANCE.

WHAT IS goBHB™?

goBHB™ is a ketone body, a breakthrough energy supplement from Compound Solutions. When eating a low carbohydrate diet, the liver converts fats to ketones, which serve as an alternative energy source for the brain, heart and muscle. With goBHB™, you are ingesting a ready-to-use ketone body, giving athletes and busy professionals more energy, performance, and focus.

Boost mental and physical performance.

Ketone bodies include acetoacetate, acetone and beta-hydroxybutyrate (BHB) which facilitate mental and physical performance. goBHB™ is a ketone body delivering an immediate boost of energy and performance to athletes, busy professionals and “Biohackers” looking for an edge.

Is goBHB™ just for athletes?

Not even close. Anyone looking to manage their weight, or feel more energetic throughout their day will love goBHB™. Busy professionals, on-the-go moms or dads, or college students looking for extra hours in the day will benefit from goBHB™. “Biohackers” love goBHB™ for its ability to maximize cognitive potential.

HOW DOES goBHB™ WORK?

Beta-Hydroxybutyrate is a ketone body providing a direct energy source to the brain and muscles. You do not have to be in a ketogenic state to benefit from goBHB™. Even those with low carbohydrate diets can experience the benefits of higher energy and better performance.

FROM COMPOUND SOLUTIONS

Discover the benefits of goBHB™:

- Carbohydrate-free fuel for muscle and brain*
- Reduce hunger*
- Improved cognition*
- Stimulates “metabolic shift” away from glucose dependence*
- Immediate and sustained energy fuel for exercise*
- Benefits of a ketogenic diet without the carb restriction*

In the gym, in the car, at home or at work:

- Ready-to-use powder
- Keto powder shakes
- Meal replacement shakes
- Functional fat shakes

About Compound Solutions

Compound Solutions is the go-to company representing and distributing unique, patented nutraceutical ingredients that improve the health and performance of individuals.

CSI supplies effective, science-based, quality ingredients to sports nutrition, functional food and nutraceutical manufacturers. We are committed to building and maintaining long-term relationships with our global customers and suppliers.

FROM COMPOUND SOLUTIONS

FUEL EVERYTHING.

WHAT IS goKE™?

goKE™ is serious fuel for athletes and busy professionals looking for a new, potent natural energy boost without carbohydrates. goKE™ contains ketone esters (KEs), which directly increase blood plasma ketone levels, and much more efficiently than 1,3 butanediol (BD) or beta-hydroxybutyrate (BHB).

Immediate energy, lasting results

goKE™ also produces more Adenosine triphosphate (ATP), which is the “molecular unit of currency” of energy. The result is more energy within cells to give athletes and busy professionals an immediate boost of energy that lasts for hours.

Is goKE just for athletes?

goKE™ is for anyone looking to manage their weight, maximize cognition, or simply feel more energetic in a low carbohydrate environment. It's perfect for busy professionals, trainers, or even on-the-go moms and dads who want to look and feel their best. “Biohackers” love goKE™ for its potential to maximize cognitive potential.

HOW DOES goKE™ WORK?

It's pretty simple. Our bodies break down KEs into the ketone bodies beta-hydroxybutyrate and acetoacetate. When this happens, the ketone bodies provide an immediate, potent energy source for brain and muscle. We feel better, we think more clearly, and we can perform at higher levels.

FROM COMPOUND SOLUTIONS

Powerful benefits of goKE™ energy supplement:

- Carbohydrate-free fuel for muscle and brain*
- Reduce hunger*
- Improved cognition*
- Stimulates “metabolic shift” away from glucose dependence*
- Immediate and sustained energy fuel for exercise*
- Benefits of a ketogenic diet without the carb restriction*

Perfect for anyone on the go:

- Currently an oil, used best in soft gels
- Soon available in a ready-to-use powder for:
 - ~ Keto powder shakes
 - ~ Meal replacement shakes
 - ~ Functional fat shakes
